

GREEN UMBRELLA REGIONAL TRAILS PLAN

CLIENT

Green Umbrella
(Funded by Interact for Health)

LOCATION

Greater Cincinnati
Region

PROJECT PHASE

Vision Plan

DESCRIPTION

In collaboration with the National Park Service, OKI Regional Council of Governments, Great Parks of Hamilton County and a Steering Committee of trails advocates from throughout the region, Human Nature led the creation of the region's first comprehensive trails plan. The plan is the result of an exhaustive 8 month process that involved 12 public meetings in 9 counties, in 3 states that used GIS mapping to capture the dynamic dialogue. Accompanying the plan is a Model Resolution that counties, communities and organizations throughout the tri-state can use for adopting the plan. In April of 2014 the Regional Trails Plan and the Model Resolution were officially unveiled at the second annual Regional Trails Summit. The event marked a major milestone in the development of the regional trail network as jurisdictions and organizations formally signed and continue to sign the Resolution.
