Keep Cincinnati Beautiful

LOCATION

Cincinnati, Ohio

PROJECT PHASE

Master Plan

DESCRIPTION

Human Nature collaborated with Kolar Design, Jan Brown-Checco, Keep Cincinnati Beautiful, and the Cincinnati Park Board to develop a conceptual master plan for the Liberty Garden. As part of Keep America Beautiful's national campaign to celebrate liberty and remember September 11th, the Liberty Garden takes visitors on a journey. An entry feature includes quotes from the Bill of Rights, the Constitution, and the Declaration of Independence. As one journeys uphill along an accessible path encribed with quotes relating to the quest for liberty, a series of four boulders inscribed with FDR's Four Freedoms provide moments for reflection. At the top of the hill, a circular lawn space called the Liberty Commons offers seating, a place for events, and a framed view of the Garden of Remembrance, a contemplative space where the tragedy of 9/11 is acknowledged. A memory stone offers visitors a chance to heal, to leave mementos and to honor victims of this and other tragedies.
